Summary

Data Analyst with a focus on turning raw datasets into clear business insights through Python, SQL, and Pandas. Builds dashboards and visualizations in Power BI and Matplotlib to communicate findings, and supports data cleaning, transformation, and reporting workflows. Applies analytical thinking to real-world datasets while strengthening Web Development & AI Integration and practical machine learning skills.

Work Experience

Artificial Intelligence Intern

Aug 2026 – Present

Big Brains · Remote Internship

- Build and evaluate machine learning classification and predictive models using Python, Pandas, and Scikit-learn
- Execute data preprocessing, feature engineering, and hyperparameter tuning to boost predictive accuracy.
- Explore practical Generative AI applications and integrate AI models into structured software workflows.

Data Analytics Intern

Aug 2026 – Present

Decode Labs · Remote Internship

- Perform data extraction, cleaning, and transformation on real-world datasets using Python, Pandas, and SQL.
- Construct interactive dashboards and visualizations using Power BI and Matplotlib to present actionable insights.
- Optimize relational database queries (MySQL, MS SQL Server) to support business analytics workflows.

Education

University of Management and Technology

Oct 2023 – Oct 2027

Information Technology | Bachelor of Science (BS)

GPA: 3.01

Relevant coursework: Machine Learning · Data Structures · Cloud Computing · Network Security · Web Technologies

Punjab Group of Colleges

Sep 2021 – Jun 2023

Pre-Engineering | F.Sc.

H.Q School System

Mar 2019 – Aug 2021

Computer Science | Matriculation

Skills

LLM API Integration, Python, Computer Vision, Natural Language Processing, Pandas & Matplotlib, PHP & Laravel, Microsoft SQL Server, Full-Stack Web Development, Problem Solving, Critical Thinking, Team Collaboration
